DETAILED ACTION

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Paragraph [0033], line 14 is now amended as "the shutter motion between the images to be 166 pixels."

In claims 1 and 5, "the location of a shutter" is now amended as "a location of a shutter."

Allowable Subject Matter

Claims 1-12 are allowed.

The following is an examiner's statement of reasons for allowance:

The closest prior art (U.S. Pat. 6,621,275 B2) teaches, in the very least, a system for testing an integrated circuit chip comprising an illumination source, an optical imager, a mechanized shutter, and a controller. According to this prior art, during navigation and target acquisition, a device is illuminated and is imaged with an image intensifier. The mechanized shutter is used to variably define imaging areas within the field of view of collection optics. As long as the area of interest is in the field-of-view of the optics, one can isolate the area of interest with the shutter. Then, the shutter may be adjusted to increase or decrease the field of view as appropriate for the particular test desired.

However, the closest prior art does not teach or fairly suggest obtaining functions by summing the pixels of first and second images corresponding to first and second shutter positions, respectively, in the direction perpendicular to the shutter's direction motion. Furthermore, this closest prior art does not obtain a difference function by subtracting first function from the second function, so as to obtain a recognizable peak in said difference function.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
